

COMPANY PROFILE

PT LINTAS GLOBAL INDONUSA

Connecting Purpose with Progress

PT LINTAS GLOBAL INDONUSA

Introduction

PT. Lintas Global Indonusa is an Indonesian company engaged in the production, trading, and export of coconut shell charcoal for domestic and international markets. With a commitment to quality, sustainability, and customer satisfaction, the company operates its own manufacturing facility and warehouse to ensure consistent product quality and reliable supply. Through effective quality management, controlled production processes, and continual improvement, **PT. Lintas Global Indonusa** strives to become a trusted producer and supplier of coconut shell charcoal that meets international market standards.

Vision & Mission

Vision

To become a trusted producer of high-quality and sustainable coconut shell charcoal that meets international market standards.

Mission

- To produce consistent, high-quality products that meet customer specifications.
- To maintain controlled and efficient production processes.
- To continuously enhance employee competence.
- To comply with all applicable legal, regulatory, and customer requirements.
- To conduct business responsibly while protecting the environment and contributing to the community.

Core Values

Our core values guide every aspect of our business and reflect our commitment to quality, integrity, innovation, and responsible growth. These principles drive us to deliver reliable products, build long-term partnerships, and continuously improve our operations while meeting customer expectations and international standards.

Integrity and Excellence

We uphold integrity, professionalism, and excellence in everything we do, delivering high-quality coconut shell charcoal that consistently meets customer specifications and international standards.

Innovation and Responsibility

We drive continual improvement through innovation, operational excellence, and employee development while conducting our business responsibly with respect for safety, the environment, and customer satisfaction.

PT LINTAS GLOBAL INDONESIA

Our Products

Raw Coconut Shell Charcoal / Granular Material :

Premium-quality coconut shell charcoal with consistent performance, produced to meet customer specifications and international quality standards. Available in customized grades and packaging to support activated carbon manufacturers, steam activation plants, and other industrial applications.

Manufacturing Facility

As a direct manufacturer, **PT. Lintas Global Indonusa** operates its own production facility in Lampung, Sumatra, Indonesia, one of the country's major coconut-producing regions. This strategic location provides reliable access to quality raw materials and supports consistent production, efficient operations, and timely delivery to customers in both domestic and international markets.

Key Advantages

- ✓ Direct Manufacturer with In-House Production Facility
- ✓ Strategically Located in Lampung, Sumatra, Indonesia
- ✓ Reliable Access to Quality Coconut Shell Raw Materials
- ✓ Customized Product Specifications and Packaging
- ✓ Consistent Quality Control at Every Production Stage
- ✓ Flexible Production Planning Based on Customer Requirements
- ✓ Export-Oriented Manufacturing and Supply

Production Process

Raw Material Receiving → Carbonization → Cooling → Screening & Sorting → Quality Control → Packaging → Finished Goods Storage → Delivery

LINTAS GLOBAL INDONESIA

Production Capability

Our manufacturing facilities are **capable of supporting both regular and customized orders while maintaining consistent quality and reliable delivery**. Production capacity is planned according to customer requirements, ensuring flexibility in order quantities, product specifications, and packaging solutions.

Production Lead Time

Estimated Production Time: 30–40 Working Days

The standard production lead time for coconut shell charcoal is approximately 30–40 working days, calculated from the receipt of the down payment, confirmation of product specifications, and final packaging approval. **Actual lead time may vary depending on order quantity, product specifications, packaging requirements, and production scheduling.**

PT. Lintas Global Indonusa is committed to delivering consistent quality and reliable on-time delivery through effective production planning, controlled manufacturing processes, and strict quality control at every stage of production.

Minimum Order Quantity (MOQ)

Flexible Order Solutions for Global Customers

To optimize production efficiency, logistics, and export operations, our standard Minimum Order Quantity (MOQ) is:

Standard MOQ: 1 × 40FT Container

Alternative order quantities may be considered based on product specifications, packaging requirements, and mutual agreement, particularly for long-term business partners and specific project requirements.

Why Choose Our MOQ?

- ✓ Optimized production and export efficiency
- ✓ Consistent product quality and batch control
- ✓ Cost-effective logistics and shipping
- ✓ Flexible solutions tailored to customer requirements

UN-Certified Packaging

International Shipping Compliance

To support the safe transportation of coconut shell charcoal for international shipments, UN-certified packaging is available upon customer request, subject to applicable transportation regulations and destination requirements.

Key Benefits

- ✓ Complies with applicable international transportation requirements
- ✓ Enhances safety during handling, storage, and shipment
- ✓ Suitable for sea freight and other approved transportation methods
- ✓ Supports secure and export-ready packaging

UN-certified packaging can be provided in accordance with customer specifications, contractual requirements, and the applicable regulations of the destination country.
